SUMMARY

Cloud and DevOps Engineer with hands-on experience in AWS, CI/CD, and containerization technologies (Docker, Kubernetes). Proven ability to design and deploy scalable infrastructure, automate critical workflows, and optimize application performance. Eager to leverage a strong foundation in Linux, scripting, and problem-solving to contribute to a dynamic engineering team.

SKILLS

- Cloud Platforms: AWS, Google Cloud, OpenStack
- CI/CD: GitHub Actions, ArgoCD
- Containerization: Docker, Kubernetes
- Infrastructure as Code (IaC): Terraform, Ansible
- Scripting & Automation: Python, Bash, Shell
- Operating Systems: Linux (Ubuntu, Red Hat), Windows
- Monitoring: Prometheus, Grafana
- Networking: DNS, Load Balancers, Firewalls

EXPERIENCE

DevOps Intern

Infrasity

December 2024 – February 2025, New Delhi

- Developed a CI/CD pipeline using GitHub Actions to automate application build, testing, and deployment, reducing manual effort by 40%.
- Implemented Infrastructure as Code (IaC) principles using Terraform to provision and manage AWS resources, ensuring consistency and version control.
- Configured Docker-based development environments, improving developer onboarding time and ensuring parity between local and production environments.
- Collaborated with the development team to troubleshoot and resolve deployment issues, ensuring high availability and system reliability.

AWS Cloud Intern

LinuxWorld Informatics Pvt. Ltd.

June 2023 – August 2025, New Delhi

- Designed and deployed scalable cloud infrastructure on AWS using Docker and Linux to support high-performance applications, improving system reliability and performance.
- Built and launched an automated food ordering bot service on AWS for a major e-commerce platform, successfully automating a key business process.
- Implemented cloud-based solutions that improved operational efficiency and supported critical business functions, including a large-scale e-commerce platform.

PROJECT

PreProdSync: A Kubernetes Solution for DevOps Integration and Testing

IEC College of Engineering and Technology • github.com/Kumar22Ankit/PreProdSync-test • December 2024 – February 2025

- Description: Engineered a robust, Kubernetes-based CI/CD solution to automate the integration and testing of new features in a pre-production environment.
- Technologies Used: Kubernetes, Docker, GitHub Actions, ArgoCD, Node.js, React, PostgreSQL
- Key Accomplishments:
 - Reduced the deployment timeline by 30% by automating build and container orchestration using Kubernetes.
 - Ensured system reliability by implementing an automated testing framework for every new commit.

Portfolio Deployment Using GitHub Actions and ArgoCD

IEC College of Engineering and Technology • github.com/Kumar22Ankit/Ankit-kumar-Portfolio • June 2024 – July 2024

- Description: Automated the end-to-end deployment of a portfolio website to a production environment using a CI/CD pipeline.
- Technologies Used: GitHub Actions, ArgoCD, AWS S3, HTML, CSS
- Key Accomplishments:
 - Created a fully automated workflow that triggers a new deployment upon code commit, ensuring continuous delivery.
 - Utilized ArgoCD for GitOps management, maintaining state synchronization between the git repository and the live environment.

EDUCATION

Bachelor of Science in Information Technology

Minor in Cloud Computing · IEC College of Engineering and Technology · Greater Noida, Uttar Pradesh · 2025

G.B Pant Institute of Technology

Diploma in Production Engineering · New Delhi · 2022

CERTIFICATIONS

Google Cloud Digital Leader Training Specialization

Coursera · 2023

AWS Cloud Computing Intern

LinuxWorld Informatics Pvt. Ltd. · 2023

INVOLVEMENT

Founder & Contributor

IEC College of Engineering and Technology · Abhiyantrik · January 2024 – Present

- Founded and established a technical community with over 100 members, partnering with educational institutions to promote STEM education.
- Organized workshops and events on emerging technologies to encourage learning and diversity in tech.

GDG on Campus Organizer IEC

IEC College of Engineering and Technology · Google Developer Groups on Campus · September 2024 – August 2025

- Led a GDG chapter, organizing events on cloud computing, AI, and open-source technologies for 200+ students.
- Managed a volunteer team of 15 members to ensure the smooth execution of events, resulting in high participant engagement.

Contributor

Medium · March 2022 – Present

- Produced in-depth technical articles on cloud computing, DevOps, and containerization.
- Focused on creating practical, step-by-step guides and use cases to help readers implement real-world solutions.

National Cadet Corps Cadet

G. B.. Pant Institute of Technology, 4 Delhi Battalion · G. B. Pant Institute of Technology, 4 Delhi Battalion · August 2020 – May 2022

- Commanded a platoon of 60 cadets at the national level, demonstrating strong leadership, teamwork, and discipline.
- Achieved a 100% pass rate and top unit recognition in regional evaluations.
